

HIRAM

Habitat

CRAFTED FOR
VISIONARY SPACES

The OCEAN surface is inspired by Japanese interior design and its traditional craftsmanship. When light touches the textured, planed surface, it creates a captivating interplay of shadows and reflections across the waves.

WOOD TYPES

Design element of natural origin

We craft the HIRAM Habitat OCEAN wall panels from premium solid oak and ash – sustainably grown and handpicked.

OAK

ASH

NATURAL FINISH

The OCEAN wall panels are refined with high-quality hardwax oil. Subtle tones add lightness, while darker shades create an elegant finish. The matte, oxidatively dried surface gives a natural look.

Refined with high-quality hardwax oil

- Scratch and abrasion resistant – provides long-lasting surface protection
- Approved for construction according to DIBt standards
- Antibacterial certified – ideal for restaurants, daycare centers & SPA areas
- Dirt-resistant and easy to clean – perfect for allergy sufferers
- Tested according to DIN 68861-1B – resistant to everyday liquids (e.g., wine, coffee, cola)
- Complies with DIN EN 71-3 (toy safety standard)

DIMENSIONS

OAK | ASH

Thickness x width

20 x 180 mm

Fixed-lengths

2.50 m or 3.00 m

We review and produce custom dimensions upon request.

Product Facts

- Solid Wood | Oak and Ash
- Planed | Irregular with 3D effect
- Grading | URBAN Classic – small knots to knot-free
- Moisture Content | 10% (+/- 2%)
- Weight | 15 kg/m², 750 kg/m³
- Application | Indoor
- Surface | Raw or finished with hardwax oil
- Installation | Full surface, tongue and groove profile
- Fire protection class | B2

The family-owned company HIRAM GmbH has been in business for 40 years and has gradually specialized in the value creation of high-quality wood species from the Black Forest, the southern German region, and French forests. The **HIRAM Habitat** brand stands for sustainability, regionality, and quality. In addition to wall panels, HIRAM Habitat produces premium floorboards, façade elements, and decking.
